Executive Summary

Versatile Operations & AI Quality Assurance Professional backed by over 3 years of hands-on experience in managing high-volume enterprise workflows, customer lifecycle operations, and tech-driven data pipelines. Proven track record of bridging client success with modern tech solutions—leveraging prompt evaluation, data management tools, and process optimization to eliminate bottlenecks and scale efficiency. Armed with a strong technical foundation (BCA, LPU) and a keen aptitude for AI-assisted automation.

Professional Experience

AI Evaluation & Quality Assurance Specialist (Project-Based), <i>Hanshake AI</i>	07/2026 – Present
- Executed rigorous AI model evaluations, proposal quality audits, and complex requirement verifications across 13+ specialized technical tasks. - Analyzed AI-generated logic and outputs against strict accuracy benchmarks, validating operational instructions to optimize system performance. - Partnered within collaborative tech workflows to assess prompt efficacy and streamline automated data validation pipelines.	
Customer Support & Operations Specialist, <i>BT Wave Solution Pvt Ltd</i>	08/2025 – Present Noida
- Managed high-volume multichannel customer touchpoints (voice & chat), consistently exceeding first-contact resolution (FCR) targets. " Maintained accurate records using internal tracking systems, ensuring real-time tracking of interactions.... - Collaborated with engineering teams to isolate product bugs, translate user friction into technical requirements, and slash average handle times. - Maintained high customer satisfaction (CSAT) scores through empathetic, process-driven issue resolution and proactive communication.	
Customer Care Executive, <i>Tumbledry</i>	07/2023 – 07/2025 Noida
- Acted as the primary escalation point for complex service requests, successfully orchestrating 100+ monthly client interactions. - Designed and implemented client retention workflows, <i>racking data insights via internal reporting tools</i> to generate weekly performance reports. - Mentored and trained incoming support personnel on operational protocols, quality frameworks, and customer handling techniques.	
Data Entry & Back-Office Operations Clerk, <i>ABC Solutions</i>	07/2022 – 12/2022
- Managed high-throughput data processing systems using advanced Excel frameworks, ensuring zero-error data governance. - Optimized internal documentation processes and streamlined record-keeping systems for the operations division.	

Education & Professional Development

Bachelor of Computer Applications (BCA) - Computer Science,
Lovely Professional University (LPU)
Graduating June 2026

- Core Subjects: Database Management Systems (DBMS), Data Structures, Software Engineering, and Web Systems.

2023 – 2026

Training & Development Certification Program (12-Week Intensive), IIT Roorkee
Completed with 72% Aggregate Score

- Specialized in corporate workflow instruction, professional communication strategies, and operational team management.

Core Competencies & Technical Expertise

AI Evaluation & Quality Assurance
AI Model Evaluation, Proposal Quality Benchmarking, Requirement Verification, Prompt Assessment, and Low-Code Workflow Integration.

Professional Competencies
Cross-functional Leadership, Analytical Problem-Solving, Stakeholder Communication, Corporate Training & Development Methodologies.

Tools & Technologies
Advanced Microsoft Excel (Pivot Tables, XLOOKUP, VLOOKUP), MS Office Suite, Google Sheets, Internal CRM/Ticketing Tools.

Operations Management
Customer Support Operations, Escalation Handling, Ticket Tracking, Back-Office Process Management.
